STOCK No. 99294 BRAND Draper

BARCODE 5010559992942

WARRANTY 12 months parts and labour

FEATURES

- Thermal overload shut-off
- 10 metre, cable reel extension lead with 2 outlet sockets
- Convenient integrated 10w COB LED
- 13A (3120w) maximum capacity (unwound)
- IP44 rated
- Limited edition.

DESCRIPTION

A Limited Edition 10 metre, two socket cable reel extension lead with thermal cut out for safety protection in case of electrical overload. The reel stands on its side to show a powerful, bright, cool-white LED light controlled by an on/off switch providing a convenient, integrated work area light.

Two 13A outlet sockets each fitted with a spring-loaded flap to keep dirt and dust out when not in use.

Manufactured from a good quality, robust plastic housing. IP44 rating. 13 Amp. Max capacity 3120w Please note all cable reels should be used fully unwound to carry to their maximum rated load safely.
