FEATURES

- Low noise, low vibration
- High speed mechanism
- The composite body reduces operator fatigue and the 'cold sink' effect
- For use with a centralised dust extraction

DESCRIPTION

A low noise, low vibration dual action air sander with a high speed mechanism that ensures greater stock removal. Manufactured with a casing made from the composite plastic and fitted with a high-tech variable speed control lever. Suitable for use with a centralised dust extraction system. The ergonomic design and lightweight housing assist in prevention of the cold-sink effect.
