230V Belt Linisher, 100mm, 1500W

BRAND Draper

WARRANTY 24 months

FEATURES

- Flat grinding using the graphite support base
- End grinding via the contact wheel
- Spring-loaded quick release belt
- Can be bench mounted or fitted to a column - available separately (Stock No. 98422)

DESCRIPTION

This Belt Linisher has a robust construction and a 1500W induction motor. Flat grinding is fulfilled by using the sanding support base, which is made of graphite - an ideal surface for sanding. End grinding is dealt with via the contact wheel, which is fitted with a work rest. All of this can be carefully controlled using the single-knob tracking adjustment. The machine features a spring-loaded quick release belt and comes with a 100 x 1220mm sanding belt. Fitted with a 3" dust extraction outlet, transparent safety guard and removeable spark trap. Ideal for use in workshops for metal contact grinding, chamfering and deburring. Also suitable for sanding wood and plastics. Can either be bench mounted or fitted to a column - available separately (Stock No. 98422).
