BARCODE 5010559984190

WARRANTY 24 months parts and labour

FEATURES

- Adjustable angle table with mitre gauge
- Two dust extraction outlets
- Belt release and tracking adjustment knob
- No volt switch for safety
- Supplied with sanding belt and disc

DESCRIPTION

This compact benchtop combined belt and disc sander packs a punch when it comes to versatility. The 25mm sanding belt is positioned vertically to its own worktable and there is a belt release and tracking knob to adjust the front wheel of the sander. The 127mm diameter disc is provided with its own worktable and mitre fence. The worktable is a decent size measuring 178 x 95mm, and it can pivot from 0-45 degrees for accurate angle sanding. The machine has a no-volt switch for safety. To keep the workspace clean, the sander can be connected to a vacuum for dust extraction and there is a 40mm outlet for both belt and disc. This belt and disc sander achieves a smooth and detailed finish on woods and plastics. It is ideal for craft and hobby work and is a worthwhile addition to a home workshop. Supplied with sanding belt and disc.
