FEATURES

- Versatile bar serving as nail puller, utility and ripping bar
- Low profile, wide claw for extra leverage
- Blackened finish for corrosion protection

DESCRIPTION

This versatile wrecking bar functions as a nail puller, utility bar and ripping bar. It features an oval shaft and a low profile, wide flattened claw that can easily fit under the workpiece, providing increased prying power while preventing it from sinking into the support surface. Made from heat treated and hardened high-quality carbon steel, with a blackened finish for added durability and corrosion resistance.
