

Draper Expert 12V LCD Brake Fluid Boiling Point Tester

STOCK No. 23708 **BRAND** Draper Expert

BARCODE 5059482071393

WARRANTY 24 months parts and labour

FEATURES

- Illuminated LCD display
- Built-in temperature protection
- Powered by 12V car battery
- Can be used to measure the temperature of other fluids using a thermocouple
- Includes syringe, flexible tube, and plastic beaker
- Supplied inside a sturdy plastic case

DESCRIPTION

This brake fluid boiling point tester provides accurate measurements of water content and boiling point in brake fluid, which is essential for safety checks and maintenance. It is compatible with Dot 3, Dot 4, and Dot 5.1 brake fluids. Additionally, the tester can measure the temperature of other fluids when used with a thermocouple. It is powered by the vehicle's 12V battery, eliminating the need for extra charging or batteries. The device features a clear digital readout on an illuminated LCD display. It also includes built-in temperature protection, and comes with a syringe, flexible tube, and plastic beaker. Supplied inside a sturdy plastic storage case.

CONTENTS

- 1 x Syringe
- 1 x Plastic beaker
- 1 x Flexible plastic tube
