Draper Expert Induction Heating Tool Kit, 1750W

BRAND Draper Expert

WARRANTY 12 months

FEATURES

- Fan assisted cooling technology
- Includes direct coils (19, 26mm), flex coil and pad coil
- Portable and supplied in a storage carry case

DESCRIPTION

Easy to use induction heater, operated by simply installing the appropriate coil type and placing over or around the ferrous metal for heating. Induction heaters are safer and more economical to use than brazing torches or welding/heating techniques. It is designed for use by professional technicians in garages, workshops and engineering facilities. This induction heater is portable and supplied in a carry case with four different shaped coils.

SPECIFICATIONS

Voltage: 230V
Input current: 7.5A
Power: 1750W
Frequency: 50/60Hz
Dimensions: 480 x 134 x 380mm
Weight: 4.5kg
