STOCK No. 53491 **BRAND** Draper

BARCODE 5059482006043

WARRANTY 12 months parts and labour

FEATURES

- 10-step automatic smart charger that analyses and reconditions deep discharged batteries
- Charges and maintains 6V* and 12V Lead-Acid batteries and 12V Lithium batteries at 100% for a long duration
- Winter charging mode protects batteries in freezing temperatures
- 12V DC power supply enables battery removal without losing car settings
- Compatible with 6V* and 12V vehicles including cars, motorcycles and vans, including AGM batteries
- Charges EFB batteries when in 12V STD mode
- *Standard wet/lead acid batteries only

DESCRIPTION

This portable 10A smart charger does more than just charge 6V and 12V vehicle batteries. It has the ability to activate, analyse and recondition the battery in 10-steps, making it ideal for deep discharged batteries. The charger can be connected to a Lead-Acid or Lithium battery for a long duration without the risk of overcharging. It can also be used in winter temperatures as low as -20°C. It is easy to use and a cost-effective solution to keep batteries in good condition all year round.
