

Hydraulic Motorcycle and ATV Lift, 680kg

STOCK No. 37777 **BRAND** Draper

BARCODE 5059482022128

WARRANTY 12 months parts and labour

FEATURES

- Foot operated hydraulic lifting/lowering mechanism
- Mechanical safety lock prevents accidental lowering
- Two rubber mats provide underbody protection

DESCRIPTION

This hydraulic motorcycle and ATV lift is suitable for lifting motorcycles, quad bikes and other all-terrain vehicles (ATVs) to a maximum load of 680kg. Designed with the health and safety of the mechanic in mind, the lift can be used by vehicle enthusiasts as well as workshop professionals. The lift has a scissor lifting action powered by a hydraulic pump. A foot pedal aids operation and a rubber pad prevents slippage, while a lock is fitted to prevent accidental lowering. The platform measures 335 x 330mm and has a minimum height of 120mm and a maximum height of 380mm. Two rubber platform mats prevent damage to the underside of the vehicle while the lift is in operation and two rear swivelling castors help with positioning.

Manufactured and individually certified to EN 1493
