Laserliner 083.010E ActiveFinder Voltage Tester

STOCK No. 37090 **BRAND** Laserliner

BARCODE 4021563735716

WARRANTY 4 Years

FEATURES

- Locates electrical voltages in cables, sockets, bulb sockets and fuses
- Easy determination of the polarity of L/N conductors, e.g. on sockets or terminals
- Effective detection of line breaks in cables and wires
- Extremely high sensitivity for tracing lines at great depths
- Clearly visible LED for indicating electrical voltages
- Integrated torch with separate ON/OFF button
- Robust, impact-resistant housing
- Housing with recycled content

DESCRIPTION

This non-contact voltage tester provides a high level of industrial safety by detecting existing alternating voltages. The device determines the polarity of L- or N-conductors, detects live cables and locates electrical voltages in cables, sockets, bulb sockets and fuses. Cable breaks can be effectively identified. Its compact design, highly visible LED indicators and integrated torch make this a very convenient tool.

CONTENTS

1 x Laserliner 083.010E ActiveFinder Voltage Tester

1 x Batteries

SPECIFICATIONS

Non-contact alternating voltage detection	Yes
Single-pole phase testing	Yes
Cable break detection	Yes
Illuminated LED	Yes
Measured Variable	Registration of electrostatic fields produced by alternating voltages
AC Voltage	Bandwidth: 50 ... 60 Hz
External Voltage Range Voltage Detector	24 ... 1000V AC
Dimensions (W x H x D)	25 x 158 x 21mm
