DESCRIPTION

The BUNKER diagnostic trolley is made of steel and features a durable, industrial powder coated finish, making it perfect for busy workshops. It includes a top compartment with a lift-up lid that opens smoothly, supported by gas struts. Inside, there is a grommet for power access, a 3-way UK power strip with three USB ports, complete with a magnetic holder. The lockable front doors slide open to reveal a versatile arrangement of five drawers. There is thick EVA foam lining the top compartment and all drawers to protect tools and equipment. Additionally, there is a collapsible side table for laptop use. The trolley is designed for easy mobility around the workshop, featuring a side handle and sturdy castors, with two of the castors equipped with brakes. The diagnostic trolley is designed for easy mobility around the workshop, featuring a side handle and sturdy castors, with two of the castors equipped with brakes.
