FEATURES

- Made from steel with protective powder coated finish
- Ball bearing drawer sliders and gas struts lift-up lid for smooth operation
- EVA anti-slip drawer lining
- Side handles and pull handle
- Two integral locks (each supplied with two keys)
- Easy to manoeuvre castors, two fitted with brakes

DESCRIPTION

This workshop and garage storage solution features a tool chest with eight drawers and lift-up top, as well as a roller cabinet with 11 drawers. They can be used individually or combined to suit the task at hand. Both are constructed from sheet steel and have a protective powder coated finish that guards against scratches and corrosion. The spacious drawers have a stylish silver trim and are equipped with ball bearing sliders for smooth operation, along with a 2mm EVA liner to protect tools and prevent them from sliding around. For easy manoeuvrability, the tool chest includes side handles, while the roller cabinet is equipped with a sturdy pull handle and four large steel castors - two fixed and two swivel with brakes. For security, the cabinet has two integral locks to safeguard tools and each comes with four keys.
