- Wide tripod base for increased stability

DESCRIPTION

These robust pin-type axle stands are supplied as a pair. They have a hardened steel locking pin. The flat circular saddle has an integrated rubber saddle pad, to prevent damage to the underside of the vehicle when in operation. It also provides extra grip to prevent slippage. The saddle height is adjustable with five settings to choose from between 350-555mm. Each stand has a wide tripod base for increased stability.
