FEATURES

- The durable and flexible J-weight cloth means the roll is easy to tear into strips
- Produced from calcined aluminium oxide which is resin bonded to provide improved grain adhesion and longer-lasting and anti-static capabilities
- For general purpose applications in most workshops and garages
- For rust removal and polishing and finishing on metal, non-ferrous alloys and painted surfaces

DESCRIPTION

The durable and flexible J-weight cloth means this 180 grit emery cloth roll is easy to tear into strips. It's produced from calcined aluminium oxide which is resin bonded to provide improved grain adhesion and longer-lasting and anti-static capabilities. The emery roll is suitable for general purpose applications in most workshops and garages, including rust removal and polishing and finishing on metal, non-ferrous alloys and painted surfaces.
