

Piston Ring Compressors

BRAND Draper

WARRANTY 12 months

FEATURES

- Spring steel clamp
- Includes steel tensoning key
- Ratchet mechanism with safety valve
- Thumb release locking mechanism
- Capacity 50-175mm (diameter)

DESCRIPTION

These piston ring compressors gently compress piston rings into position, reducing the risk of damage to components during installation. They are key operated with a ratchet mechanism and safety valve to allow secure rapid compression and control. Made from tempered spring steel, and complete with a steel tensoning key. Simple thumb release locking mechanism. Capacity 50-175mm (diameter).

| Stock No. | Capacity | Height |
|-----------|----------|--------|
| 08443 | 50-175mm | 3" |
| 08444 | 50-175mm | 4" |
