FEATURES

- Manufactured from hardened and tempered drop forged chrome vanadium steel
- High leverage rivet enables enhanced grip and cutting power with less effort
- Elongated and narrow jaws for reaching into confined spaces
- Pointed tips enable grasping of small objects and precise adjustments
- Precision machined and induction hardened serrated cutting edges
- Finely ground head with black oxide finish and electrophoretic plating for superior corrosion resistance
- Ergonomic soft grip handles ensure a secure and comfortable hold, helping to reduce fatigue

DESCRIPTION

These long nose pliers are premium designed with a high leverage function to enhance grip and cutting power. They are made from hardened and tempered drop forged chrome vanadium steel. The elongated, narrow jaws are perfect for reaching into tight spaces, while the pointed tips allow for grasping small objects and making precise adjustments. The jaws feature precision machined, induction hardened serrated cutting edges, providing extra grip and accuracy. The head is finely ground and coated with a black oxide finish and electrophoretic plating for superior corrosion resistance. The ergonomic soft grip handles offer a secure and comfortable hold, enabling maximum force with less effort and reduced fatigue during use.
