240V Diesel Heater, 238800 BTU/70kW

BRAND

WARRANTY

FEATURES

- High 70kW heat output quickly warms large spaces
- Powerful airflow for even heat distribution
- Larger fuel tank for longer run time without refuelling
- Efficient nozzle and high pressure pump for reliable, consistent performance
- Easy setup, no installation required
- Perfect for industrial use in workshops, garages, and warehouses

DESCRIPTION

70kW heat output quickly warms large spaces like workshops, garages, or warehouses with powerful airflow, efficient fuel consumption, and out-the-box setup to keep the cold at bay all year round.

CE Compliant

CONTENTS

1 x 240V Diesel Heater, 70kW

1 x Manual

SPECIFICATIONS

Input: 240V / 50Hz
Motor: 430W
Heat Output: 238800BTU
Airflow: 1300m^3/h
Tank Capacity: 69L
