Trolley Jacks, 2.25 Tonne

BRAND Draper

WARRANTY 12 months

FEATURES

- 75-505mm lifting range
- Twin piston pump for fast lift
- Low profile design
- Integrated rubber saddle pad prevents damage to underside of vehicle
- Nylon wheels with rear swivelling castors, that prevent damage to garage floors

DESCRIPTION

These low-profile trolley jacks are capable of lifting from 75-505mm and they have a capacity of 2.25 Tonne. They have a twin-piston quick lift facility, with eight pumps to enable them to reach maximum height efficiently. The twin spring return system ensures the jacks lower safely when not under load. They are fitted with a twin safety valve to prevent the jacks from overloading. There is an integrated rubber saddle pad to prevent damage to the underside of the vehicle when in operation. There is also an EVA foam handle cover to prevent panel damage. The knurled handgrip on the end of the lifting arm enables a more secure hold when used. Fitted with hardwearing nylon wheels with rear swiveling castors, for quiet and smooth operation. These wheels also prevent damage to garage floors.

Manufactured to EN 1494 Specification

SPECIFICATIONS

Capacity: 2.25 Tonne
Lifting range: 75-505mm
Saddle diameter: 110mm
Handle length: 1,145mm
