

Defender 240V Rechargeable Gripper Hand Lamp, 10W

BRAND

WARRANTY

FEATURES

- 1200 lumen maximum output provides bright illumination for detailed tasks and general work areas
 - Rechargeable 3.7V 10Ah lithium battery provides cordless operation without a mains power connection during use
 - Gripper hand-lamp design provides practical positioning and hands-free lighting for work tasks
 - 120° beam angle provides broad light coverage across the working area rather than a narrow focused beam
 - USB Type-C charging system with PD18W support allows the lamp to be recharged in approximately 3–4 hours
-

DESCRIPTION

A rechargeable 1200-lumen LED gripper hand lamp with two brightness settings for portable, hands-free illumination in work areas, perfect for vehicle repairs, construction, maintenance, workshops, garages, and portable task lighting. It features a rechargeable battery, 120° beam angle, and a USB Type-C charging system.
