### FEATURES

- Heavy-duty and made from aluminium
- Milled top and bottom surface for maximum stability and accuracy
- 180° domed/arc centre vial and two 90° vials
- UV and shock-resistant vials, plus embossed rubber ends for added protection
- Integrated anti-slip handle with hang holes for convenient storage

### DESCRIPTION

This professional, robust box spirit level is made from aluminium and features three vials. It has a milled face on the underside, ensuring maximum flatness and high accuracy. The level is equipped with a 180° domed/arc center vial and two 90° vials. The vials are UV and shock-resistant, and the embossed rubber end caps reduce impact when the level is dropped. Convenient hang holes are available at both ends for easy storage. The accuracy is 0.5mm in a standard working position.
