- Suitable for cleaning, deburring and surface preparation
- Compatible with most angle grinders with an M14x2 connection

### DESCRIPTION

This wire cup brush is designed for light to medium-duty work and delivers rapid stock removal on stainless-steel and other non-ferrous metals. The bristles are made from hardened stainless-steel wire providing reliable performance. The crimping is flexible to tackle recessed areas and irregular surfaces. The cup shape works flat to the surface to cover a large surface area. Compatible with most angle grinders with an M14x2 connection.

Conforms to EN1083-1 and EN1083-2
