

5A 6/12V Smart Battery Charger LCD

STOCK No. 32307 **BRAND** Draper

BARCODE 5059482118029

WARRANTY 24 months parts and labour

FEATURES

- Supports both 6V and 12V lead-acid battery charging
- Suitable for flooded, maintenance-free, AGM and gel batteries
- Smart charging system helps optimise battery performance and lifespan
- LCD display provides clear charging and status information
- Maximum 5A charging output suitable for batteries from 4Ah to 150Ah
- Reverse polarity protection improves user safety during connection
- Short-circuit protection helps prevent charger and battery damage
- Charging start voltage from 1.5V supports recovery of low-voltage batteries
- Operates in temperatures from -20°C to 40°C for reliable indoor and outdoor use

DESCRIPTION

5A 6/12V smart battery charger with LCD display designed for charging and maintaining automotive and leisure batteries safely and efficiently. Ideal for vehicle owners, mechanics, and garages, it features a smart charging system that helps optimise battery performance and lifespan.

CE, EMC, LVD, GS and RoHS compliant

CONTENTS

1 x 5A 6/12V Smart Battery Charger LCD

1 x Alligator Clamp

SPECIFICATIONS

Nominal Voltage	220V - 240V
Battery Current	Max. 5A
Battery Voltage	6V/12V
Charging Start Voltage	1.5V
Battery Capacity	4-150Ah
Output Cable Length	1.5m
Input Cable Length	1.5m with BS plug
Display	LCD
Surrounding Temperature	-20°C to 40°C
Protection class	IP54
