

Pond and Pool Vacuum Cleaning Kit (4 Piece)

STOCK No. 10000 BRAND Draper

BARCODE 5059482040832

WARRANTY Lifetime

FEATURES

- Impact resistant polypropylene suction head
- Strong, lightweight, aluminium telescopic handle
- Supplied with skimming net for surface debris
- Water supplied filtration system - filter bag included
- Ideal for removing dirt from the bottom of the pond/pool

DESCRIPTION

This four-piece kit is a convenient and practical tool for cleaning ponds and pools. It removes dirt from the bottom of the pond or pool using a water filtration vacuum system, with the debris collecting inside the supplied filter bag. The telescopic extending handle provides a maximum length of 1.7m to enable the suction head to reach the bottom of the pond or pool. The handle is made from strong aluminium, making it lightweight for ease of use. The vacuum suction head is made from impact-resistant polypropylene. There is also a skimming net for removing debris floating on the water surface.

CONTENTS

- 1 x Filter bag
- 1 x Skimming net
- 1 x Hose adaptor with valve
- 1 x Suction head

SPECIFICATIONS

Telescopic length	76cm-1.7m
Weight	820g
