Piston Ring Compressors

BRAND Draper

WARRANTY 12 months

FEATURES

- Spring steel clamp
- Includes steel tensioning key
- Ratchet mechanism with safety valve
- Thumb release locking mechanism
- Capacity 50-175mm (diameter)

DESCRIPTION

These piston ring compressors gently compress piston rings into position, reducing the risk of damage to components during installation. They are key operated with a ratchet mechanism and safety valve to allow secure rapid compression and control. Made from tempered spring steel, and complete with a steel tensioning key. Simple thumb release locking mechanism. Capacity 50-175mm (diameter).

Stock No.	Capacity	Height
08443	50-175mm	3"
08444	50-175mm	4"
