## FEATURES

- Made from heavy-duty steel
- Black powder-coated for corrosion protection
- T-handle with durable soft foam grips
- Footplate for exerting extra pressure

## DESCRIPTION

This heavy duty garden tiller has four tines and is designed to turn top soil. Constructed from high-quality tubular steel with a black powder-coated finish for corrosion protection. It has a T-shaped handle with durable soft foam grips for comfort during use. It is designed with a long shaft, reducing the need for bending and reducing back strain. Strong footplate enables extra-pressure to be applied as needed.
