Watch video!

Film4Floor is a self-adhesive white film to be applied on the booth floor. This film makes the cleaning of the booth floor very easy. It is 100 micron thick so extra strong, reflective white to increase the light in the booth and is treated with paint adhesion. Easy to remove, does not leave adhesive residue on the floor. Can be used in combination with Dust Control to eliminate dust in paint jobs.

Film4Floor

60cm x 50m
