Frequently Asked Questions

> How to mask car apertures?

Colad Foam Masking Tape is especially designed to mask car apertures. It protects against sharp edges and prevents overspray from bleeding through.

> How to mask jambs on cars?

It's essential to mask the jambs on a vehicle before repairing it to prevent them from overspray. Colad Foam Masking Tape is designed to fill up the jambs and prevents them from overspray. If you use regular masking tape for this it's going to leave a hard edge, foam masking tape results in a soft edge.

> How to apply foam masking tape?

Clean the surface before applying the Foam Masking Tape. Make sure the adhesive part of the paint faces the inside of the vehicle. Don't stretch out the foam masking tape during application. Apply the tape all through the aperture/jamb for complete protection.
