General

Article number: 3683

Description: Colad Interface pad soft Evo-MaxFlow
150 mm 96 holes

Specification

High quality interface pad soft. The high quality soft foam adapts to contours and edges for a finer finish. Reduce edge cutting and maintain closer contact with the edge. To be used with the Evo sanding support pad.

Features and Benefits

- **Adapts to the surface**
 - The high quality soft foam adapts to contours and edges for a finer finish.
 - Reduce edge cutting and maintain closer contact with the edge.
- **Easy to use**
 - Hook-and-loop system for fast and easy applying of the interface pad and abrasive disc changes.
 - Reduces vibration from orbital sanders for improved final results.
- **High performance & quality**
 - Stable and constant performance under every condition, for an even sanded surface;
 - Can be used at heavy duty applications. Withstands high strengths and high temperatures.
- **Extremely effective dust removal**
 - 96 holes with strong suction, removing a big amount of dust from the surface;
 - Will prevent loading your sanding disc;
 - Keeps the abrasives sharp and more durable, so you'll use less abrasive discs;
 - Cleaner surface;
 - Healthier work environment.
