

Colad Metal Spray Samples with Magnetic Holder

Metal Spray Samples with Magnetic Holder for colour check

This is an easy way to test paint for colour accuracy of both water-based and conventional paint by using Metal Spray Samples. They come with a black stripe (except for the black version) to indicate the degree of the colour's opaqueness and a \varnothing 15 mm hole to match the colour. On the backside of the Metal Spray Sample is enough space to note down the colour number and further information on the corresponding vehicle or colour. 250 pieces and a magnetic holder per package.
