## Colad Film4Booth Foil Dispenser

**No need for carrying the Film4Booth roll and dispenser through the spray booth anymore!**

The application of Film4Booth can be a heavy job. Because of the unique 4-layer structure, the roll of film is quite heavy. With the Colad Film4Booth Dispenser you are able to apply Film4Booth in a very fast and easy way. Simply install the Film4Booth roll on the dispenser from the top and start applying the foil to the spray booth walls.

No need for carrying the Film4Booth roll and dispenser through the spray booth anymore! The two solid wheels and easy to add-on handle bar make the dispenser manoeuvrable on any surface (including grid floors).

After use, remove the handle bar to save storage space.
