

# Easy Fit CCTV Range

**Did you know that houses with CCTV are 90% less likely to be burgled?**

## **Yale now offer a range of Easy Fit CCTV systems**

Protect your premises wherever you are with our new range of CCTV systems, built to give you 24/7 security from an easy-to-use platform.

Whether it's your home or your business, having extra security can help you gain peace of mind about the safety of your possessions and loved ones.

Yale CCTV gives you one security solution to fit all. The waterproof high resolution cameras mean that CCTV is no longer under the stigma of blurry or pixelated images. Yale systems use up to 960H resolution technology which offers a larger and more detailed image of what is happening around your property.

The Hybrid DVR system gives real time, full screen high resolution video recording which can sync up to your mobile devices, allowing you to see through Yale Vision wherever you are.

### **We'll watch out for you, wherever you are**

Have you ever been on holiday and wanted a quick peek to check your house? At home and want to check your office security? The great thing about Yale CCTV system is the ability to view footage anywhere in the world using a smartphone, tablet or PC. All you have to do is set up your recorder with an internet connection.

### **24/7 Protection**

Our Easy Fit CCTV systems have powerful infrared LED night vision up to 20m /65ft. This means that your property is protected fully around the clock.

### **DIY Installation**

The Yale Easy Fit CCTV range has been designed with the user in mind. The CCTV system is a DIY installation and the user menu interface allows for a quick set up.

# The **Yale CCTV App** in detail

## Home Page

Access the different options on the app through the home screen.

## Selecting Cameras

When having several cameras you can select different views.

## Image Selection

Expand one image and use the playback option to view footage.

# Control your **Yale Easy Fit Alarm** using CCTV/Alarm adaptor

The CCTV/Alarm adaptor allows you to control and monitor your Easy Fit Alarm system through your Easy Fit CCTV DVR's menu and mobile application - giving you complete control.

Yale's innovative system offers you the ability to turn your alarm on or off from a remote location by using the Yale app on your smart phone or tablet device.

And the best part? It's easy. Simply pair the USB adaptor to your alarm and connect into your Easy Fit DVR via the USB port.

**Yale CCTV.** We will watch out for you, wherever you are.

**Set-Up Requirement:**  
For use in home with broadband connection.  
Homes with a router required with one free wired network port.

**SmartPhone Compatibility:**  
iOS 7 and above.  
Android 4.1 and above.  
Internet connection required.

The SmartPhone feature requires our central server. Yale offers no guarantee on the availability of our server. Yale aims to maintain a server until 2020. We would contact individual users via email should this situation change.

The following list of accessories are compatible with ALL Yale Easy Fit CCTV Kits
