DUO F1

Sleek - Stylish - Sturdy With Silca Quality

The all-new DUO F1 redefines what a key-cutting machine can be. Engineered as the perfect blend of the technical strengths and the intelligent capabilities. DUO F1 brings together the best of both worlds in one advanced & stylish platform.

Mechanical key-cutting machine for making copies of flat cylinder and vehicle keys and cruciform keys (left-hand carriage); bit and double bit keys and mail box keys (right-hand carriage).

KEY TYPES

Optimized clamps mean flexibility of use

The four-sided clamps allow virtually all flat keys present on the market to be duplicated. The two/three-sided revolving clamps for bit and double bit keys have a special blocking system for Abus® and Abloy® type keys. Locksmiths can use Optional Adaptors for widening the range, Ford Adaptor for Tibbe Keys* & Vertical Milling Adaptor*

Calibration

Duo F1 is equipped with tracer point adjustment rings for fast, precise calibration on both workstations.

Double cutter protection

Innovative offset clamp

Innovative offset clamp & carriage & Offset clamp for accommodating longer & thicker bit keys.

The machine features a slot that allows users to duplicate longest bit keys* (selective 160mm-180mm restricted due to clamp shape). It has special tilting mechanism provided by the combination of a dedicated shaft and carriage movement ensures excellent flares on bit and double bit keys

Warm white lighting ensures Perfect visibility

Available in Duo F1 Plus model

Technical Data

Power supply : 230V - 50Hz

Maximum power absorbed : 230V: 300W 1, 2 Amp.

Cutter motor : One-Speed single phase 230V-50Hz (1400 rpm)

Movements : By gear on rectified carriage

Cutters : Carbide

Runs (Maximum length of cut) :

Flat keys : Flat cylinder keys: 42 mm

Bit & Double Bit : Bit and double bit keys : 25 mm

Dimensions :

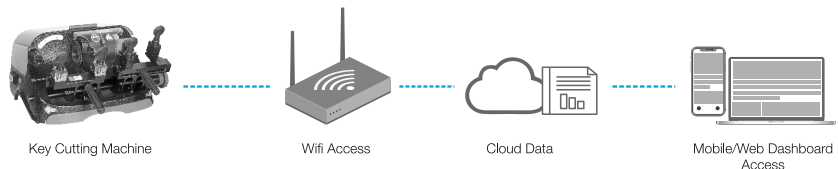

W : 492 mm

D : 455 mm

H : 288 mm
