

CL5000 DND Electronic Lock

Introducing CL5000 DND

Take control of access with our new **Do Not Disturb** electronic lock.

Privacy and access control are more important than ever in meeting rooms, consulting rooms and private spaces.

With the new CL5000 DND electronic lock, part of the CL5000 range, you can enhance both while providing your users peace of mind.

Do Not Disturb provides privacy, allowing users to use facilities without the worry of unexpected interruptions or awkward encounters.

This new lock is designed to boost user confidence and comfort, creating a seamless and stress-free experience in any shared space.

- ✓ Controlled privacy
- ✓ Boost user confidence and comfort
- ✓ Seamless and stress-free experience
- ✓ No interruptions or unwanted access
- ✓ Suitable for meeting rooms, consulting rooms and private spaces

Enable DND by pressing the red button on the inside. To cancel DND press the blue button or turn the inside lever handle. Controlled privacy has never been easier!

When activated, only the Master and Sub-Master codes can unlock the door, ensuring no interruptions or unwanted access. If a standard User Code is entered, the lock's LEDs will flash, an alert will beep, and the door remains securely locked. Easily override the DND mode with the Master/Sub-Master code or the override key.

Controlled access and peace of mind, at your fingertips!
