Even in the most remote locations.

NetCode®

Stay. Greet. Work. Play. Eat.

CODELOCKS
control + convenience

Netcode introduction

- ✓ Since its launch in 2014, Codelocks' NetCode® Technology has grown rapidly in functionality and versatility, developing a global reputation for bringing control + convenience to many applications.
- ✓ Working in harmony with our Codelocks and Kitlock locking solutions, using NetCodes for flexible, temporary access enables business owners to reduce overhead costs and facilitate consumer self-service
- ✓ So what is ... A NetCode® it is a flexible, temporary code that provides access within a pre-determined date & time range chosen at the time of generating the code.
- ✓ Generating these on your own Codelocks Connect Portal account provides a quick and convenient way of generating NetCodes and sending these to your users via email or SMS.
- ✓ No Wi-Fi is required to operate the locks, significantly increasing the potential for use in areas where Wi-Fi is unavailable or intermittent, helping our customers to issue a NetCode® and manage access control wherever they are, even in the most remote locations.
- ✓ Once generated, a NetCode® can be shared via email or text and will expire after their set duration - ideal for visiting service engineers, venue rentals, music studios, sports clubs, delivery personnel and short / medium-term property rental.

The smart way to generate access codes, in three easy steps...

1. Generate

Generate a NetCode® easily and quickly via the Codelocks Connect Portal.

2. Communicate

Once generated, send the NetCode® via SMS or email to the client.

3. Activate

The NetCode® will be active throughout its set duration, after which it will expire.

NetCode®

Stay. Greet. Work. Play. Eat.

CODELOCKS
control + convenience

CL5000 NetCode®

With the original CL5000 having stood strong since its launch in 2004, the CL5000 NetCode® is an evolution of a time-tested classic.

The addition of Codelocks NetCode® Technology unlocks added benefits of temporary, time-sensitive access codes that provide an increased level of control. Enjoy the flexibility and convenience of remote access, granting or revoking entry from afar via the Codelocks Connect Portal.

Key Features

- NetCode® technology
- Up to 80 User Codes
- Up to 10 One Time User Codes
- Heavy duty suited to high traffic
- Up to 200,000 operations from 4 x AA batteries
- Code Free Mode (Passage Function)
- CE / Fire rated for 30 and 60 minute fire doors when installed with the Codelocks Fire Kit (sold separately). Tested in accordance with BS EN 1634-1.

Solid Black Finish

Introducing the new Solid Black finish for Codelocks Electronic locks, coming soon the CL5000 NetCode® electronic door locks will be IP44 rated*.

The finish shares the same compound structure of the finish applied to our Marine by Codelocks range of mechanical locks. It's durable, designed to withstand harsh environments and highly resistant to chipping or flaking, ensuring a long-lasting, sleek look.

When installed in an external environment, it's recommended to use a protective PINGuard™ weather shield with these models for maximum protection.

Codelocks Connect: An Overview

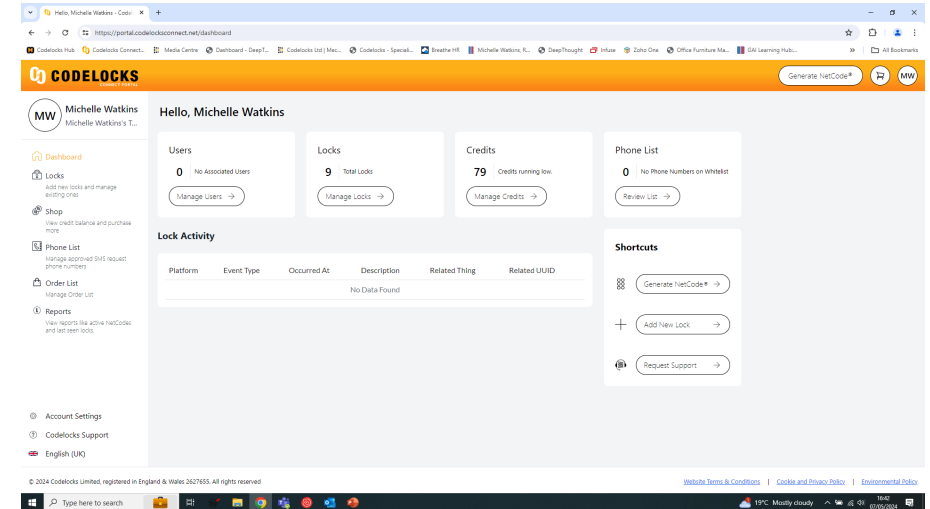

Portal

For managing multiple locks you can generate and send your codes from here.

- Multiple admins allowed.
- Flexible billing.
- NetCodes options.

With the Codelocks API it is possible to access more advanced digital products and services – the API can connect a booking site into the Portal for seamless Netcode generation / delivery

Netcode Portal costs - options

Codelocks Portal

- ✓ On the portal you are able to load up credits as a Pay as You Go customer or activate a service plan – pay a subscription fee per month (for larger scale users) *

- ✓ For example buy 100 credits for £16.54 ex VAT and top up whenever you need to...

Use 1 x credit to generate your Netcode and 1 x credit to send this from the Portal = £0.33 pence per Netcode!

PAYG credits remain on your account until they are used so you can budget easily

Alerts let you know when credits are running low so you never miss a Netcode sale

- ✓ The Netcodes are generated simply by selecting the lock and entering the specified start date and time, 7th March start time 9 am for 4 hours or one time only options and pressing create!
