Follow our step by step guide to build your bathroom

5 year Warranty
fitted furniture

1 | Door Style and Finish

Choose your preferred cabinet style from the Flush, Shaker, or Formed ranges, then select your desired door finish. Options are available for both standard and slim-depth units, allowing you to create a cohesive look across your bathroom.

2 | Handles

Select your handle style from twelve available options to complement your furniture. Each design offers a balance of practicality and style, helping you achieve a coordinated and finished appearance.

3 | Worktop and Basins

Select a worktop from either our solid surface or laminate options and pair it with a semi-countertop basin. Alternatively, opt for an Isocast worktop with an integrated basin for a sleek look, available for both standard and slim units.

4 | Cabinets

Choose your preferred cabinet and depth of unit from either our Flush, Shaker or Formed range. A variety of sizes and configurations are available to suit your layout and storage requirements.

5 | Sanitaryware

Choose your Infinita sanitaryware to complement your furniture and overall bathroom design.

See pages 90 - 135 for the full range of options available.

6 | Plinths and Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill gaps in a wall-to-wall installation.

7 | Mirrors and Cabinets

Choose your preferred mirror or cabinet to enhance both storage and style.

See pages 346 - 369 and consider adding wall cabinets for additional practical storage.

8 | Bath Panels

Select a co-ordinating bath panel to match your furniture and complete the overall bathroom design. This helps create a seamless and consistent finish.

9 | Taps

Complete your bathroom look with an Infinita basin mixer tap.

See pages 254 - 287 to explore the available styles and finishes.

1 | Door Style and Finish

Select your door style, Flush, Shaker or Formed and your finish colour.

Close Coupled Sensor Flush Kits

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves.

For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our **MDLK029** valve, which has a 2" base.

- Can be used with the following ranges:
- MDLK027 - Ø38mm

• Amalfi

• Rapello

• Dauphin
- MDLK028 - Ø48mm

• Lucca

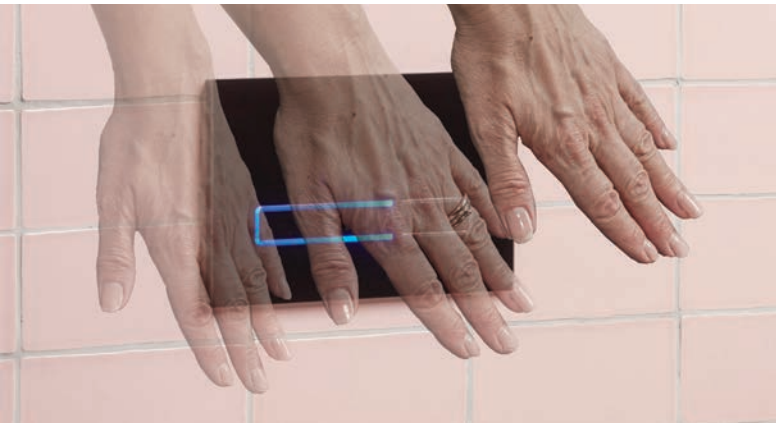

• Siena

• Lenore

• Spree

• Lenore

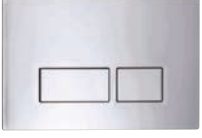

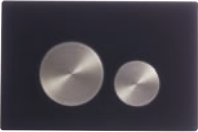

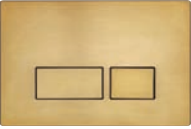

• Foss

The Ultimate Premium reinforced acrylic bath

- Hand finished in the UK to a high standard, Infinitacast baths are durable, strong and are a reassuringly substantial weight.
- Regardless of the style chosen, each bath is reinforced with extra rigidity, so the bath will not 'flex' when you step in.
- The multicore layer design of Infinitacast baths offer excellent heat retention, so water stays hotter for longer.

Infinitacast features

1. 5mm Cast Acrylic

Precision engineered with clean corners and maximised bathing space.

2. Encapsulated Timber Support

Providing robust, long lasting structural strength without the need for leg supports.

3. Seven Layers of Reinforcement

Seven layers of hand applied core matting fibreglass and resin fully encapsulates the acrylic skin.

4. 18mm Encapsulated Baseboard

Full support to the base of the bath offering reassuring strength throughout its lifetime.

5. Colour Matched Panels

Colour matched acrylic with timber reinforced panels complete the bath finish.

The Ace range delivers stylish, quality products with additional features and benefits including heights of 1800mm and 1900mm and comes with pre-assembled fixtures making it easier to fit. Ace offers loft height sizes (1800mm) in Sliding Doors, Bi-fold Doors, Two Door Quadrants and Side Panels. These loft sizes are ideal for low ceilings, making the most out of the space in your bathroom.

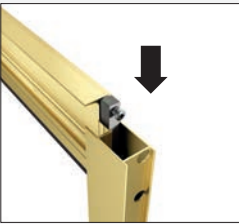

Anodised finish

The colour layer is fully integrated with the underlying aluminium substrate, so it cannot chip or peel. Making it more durable than powder coating.

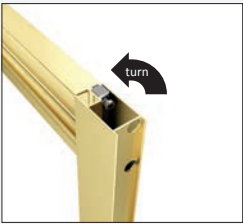

Unique easy fit system

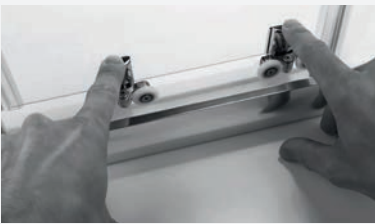

Align the horizontal and vertical profiles together.

Slot the horizontal profile and screws into upright using guide channel until flush.

Secure screws into position using dedicated access holes.

All rollers on Ace products are double quick release for easy-cleaning.

3 Panel Sliding Door

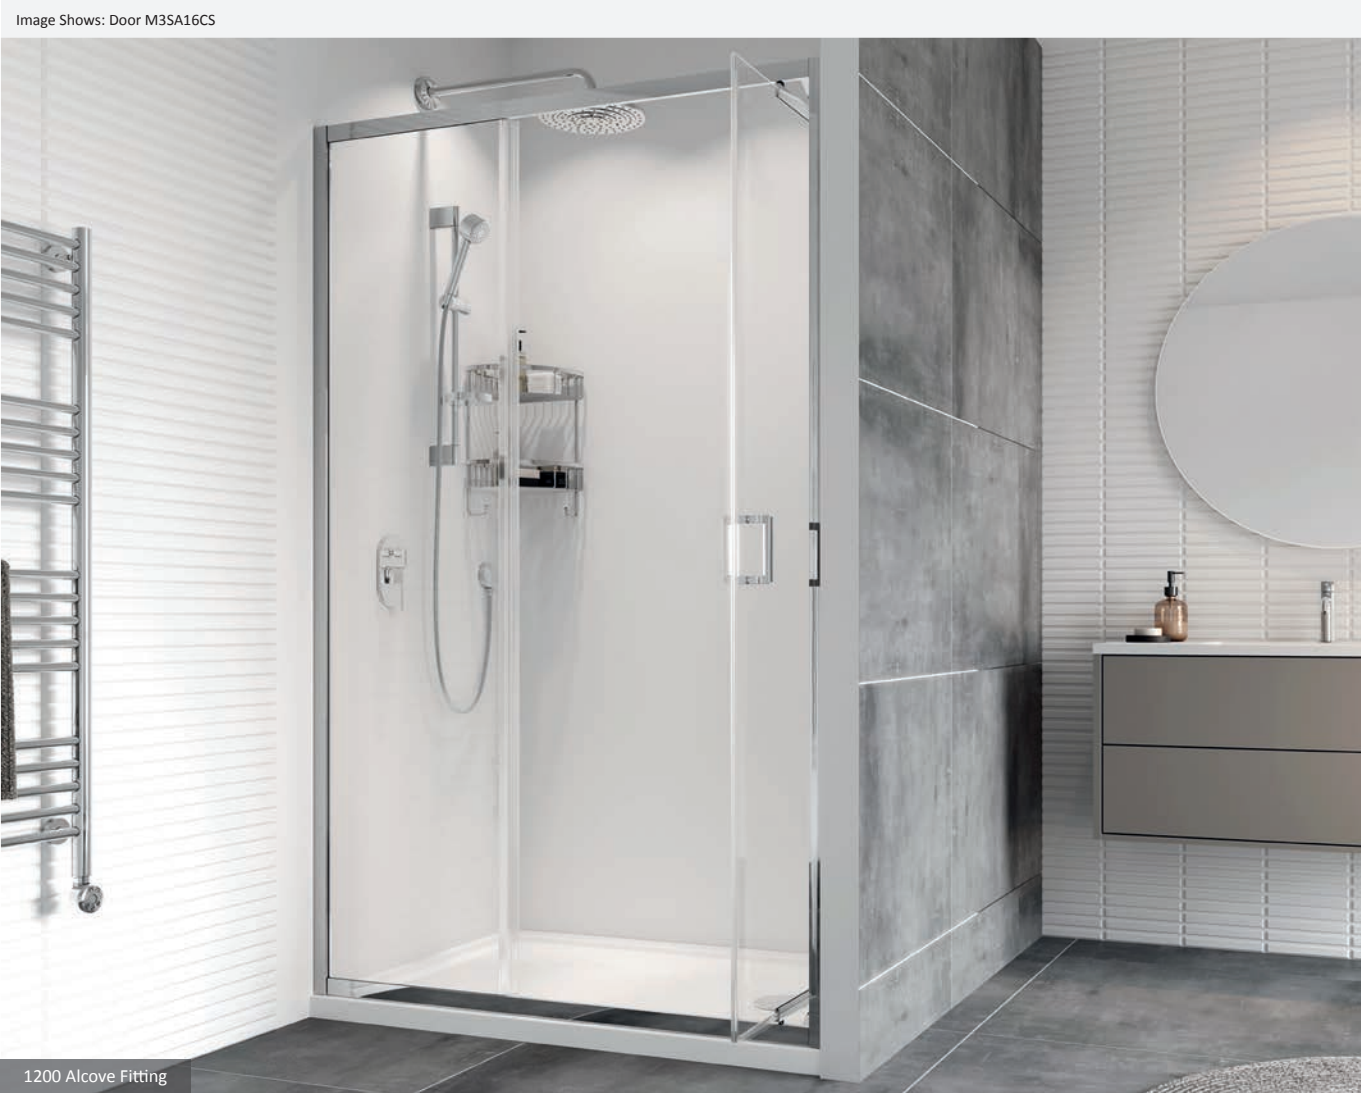

- The innovative 3 panel sliding door moves as one in a synchronised action. The sliding action is a gliding motion unrivalled in the marketplace. There is no bottom rail at all or threshold and the fixed panel is aligned to the inside edge of the shower tray - with the 2 sliding panels sitting inside the wet area.
- The openings offered by the products are huge and offer major benefits for assisted showering or wider access requirements. The 1200mm version has an opening of 671mm which offers easy wheelchair access if required. A dedicated side panel is available if the layout requires a corner installation.
- Height: 2000mm
 - Glass thickness: 6mm
 - All 3 panels move together as one
 - Magnets hidden behind aluminium profile
 - Large opening for easy shower access
 - Magnetic seal ensures positive close
 - Reversible for left or right hand fixing

Inswing Door

- This cleverly designed Inswing Door is ideal for a confined shower space or small ensuite where protrusion into the room needs to be minimal. The mechanism means that the door effectively opens one third into the room and two thirds remains inside the showering space.
- The 800mm, 900mm and 1000mm units are one piece doors offering large access space; whilst the 1200mm option features an integrated Inline Panel. A dedicated Side Panel is available in three sizes should corner installation be required.
- Height: 1950mm
 - Glass thickness: 6mm
 - Minimal projection into bathroom space
 - Chromed plastic end and top caps
 - Smooth inward opening door operation
 - Maximised opening for easy shower access
 - Reversible for left or right hand fixing

Tongue and groove waterproof join for beautiful continuous walls

We created Tongue and groove join to enhance the visual impact of our wall panels. Precisely engineered, the tongue and groove edge allows panels to be joined together, without the use of mid-joints, to create a smooth, almost seamless expanse of waterproof walls. With a 6mm tolerance our panels are easy to install and produce a great finish every time.

Soft Mineral Essence Collection

Summit White Tile Metro

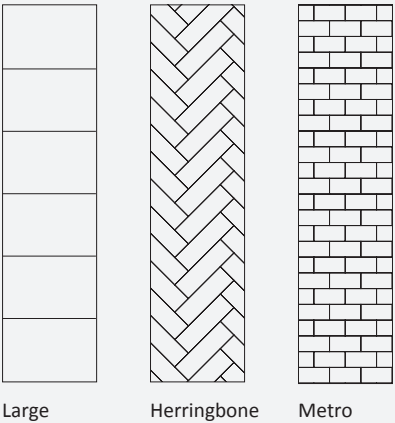

Choose your pattern, choose your colour and create your unique vision

If you love the appearance of traditional tiles but are tired of living with the maintenance of grout, the Infinita Tile Collection is for you. Using the very latest in manufacturing technology, we etch a 2.5mm pale grey grout line into our Infinita Collection décors.

Putty Stone Herringbone Tile

100% Recycled Material

Takeoff®

With our practical TakeOff® hinges, the toilet seat can easily be removed and re-attached without the need for any additional tools or any mechanical feature to push.

SolidFix®

Our high-quality hinges are made of stainless steel and are the basis of our toilet seats' reliable hold and accurate fit. Secure fastening through our reliable installation solutions prevents sideways movement of the toilet seat.

Duroplast

Duroplast toilet seats are extremely robust, scratch resistant and have extraordinary surface harness. Duroplast toilet seats have a smooth and non-porous surface. This makes it much easier to clean the seat and lid.

TopFix

The TopFix hinge solution enables convenient mounting from the top. The solid fixing nut and the stainless steel thread ensure additional fastening and the highest stability.

SoftClose®

The practical SoftClose® Solution allows the toilet lid to be closed silently, gently and comfortably with just a tap of the finger - slowly, smoothly and evenly.

ExCenter

Our flexibly adjustable ExCenter stainless-steel hinges attach our toilet seats to all standard toilet models. This is because the metal hinges can be moved in four directions, impressing with their high degree of flexibility.

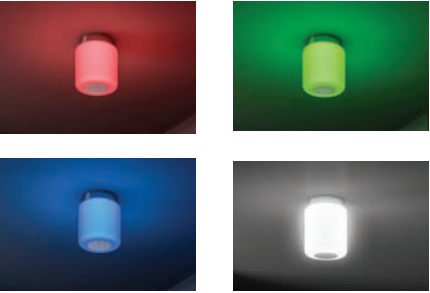

Tecno

Tecno features a **Bluetooth®** enabled speaker that allows you to play your favourite music, podcast or audiobook straight from your device. A remote control means you can adjust the volume, skip a track and even change the dimmable LED light from cool white to warm white and through a spectrum of red, green and blue hues; creating a whole new level of ambience. This groundbreaking light helps you personalise your bathroom experience, setting the tone for an energetic morning routine or an indulgent evening pamper.

- Remote control operation – lighting and music
- **Bluetooth®** connectivity with compatible devices
- Hand blown glass shade
- Colour temperature changing LED illumination
- 1555lm max
- Dimmable
- 12 RGB colour options (non-dimmable)

En-suite

Transform your en-suite into a tranquil retreat with modular furniture options that maximise every inch of additional space. Custom-made solutions can perfectly complement the individual needs of your bathroom, delivering a bespoke look with maximum storage capacity to contain your clutter.

Family Bathroom

Sharing a family bathroom requires a carefully planned space. Keep in mind the number of people who will be using the room. Choosing the right furniture and storage is vital to contain the clutter and ensure a stylish space.

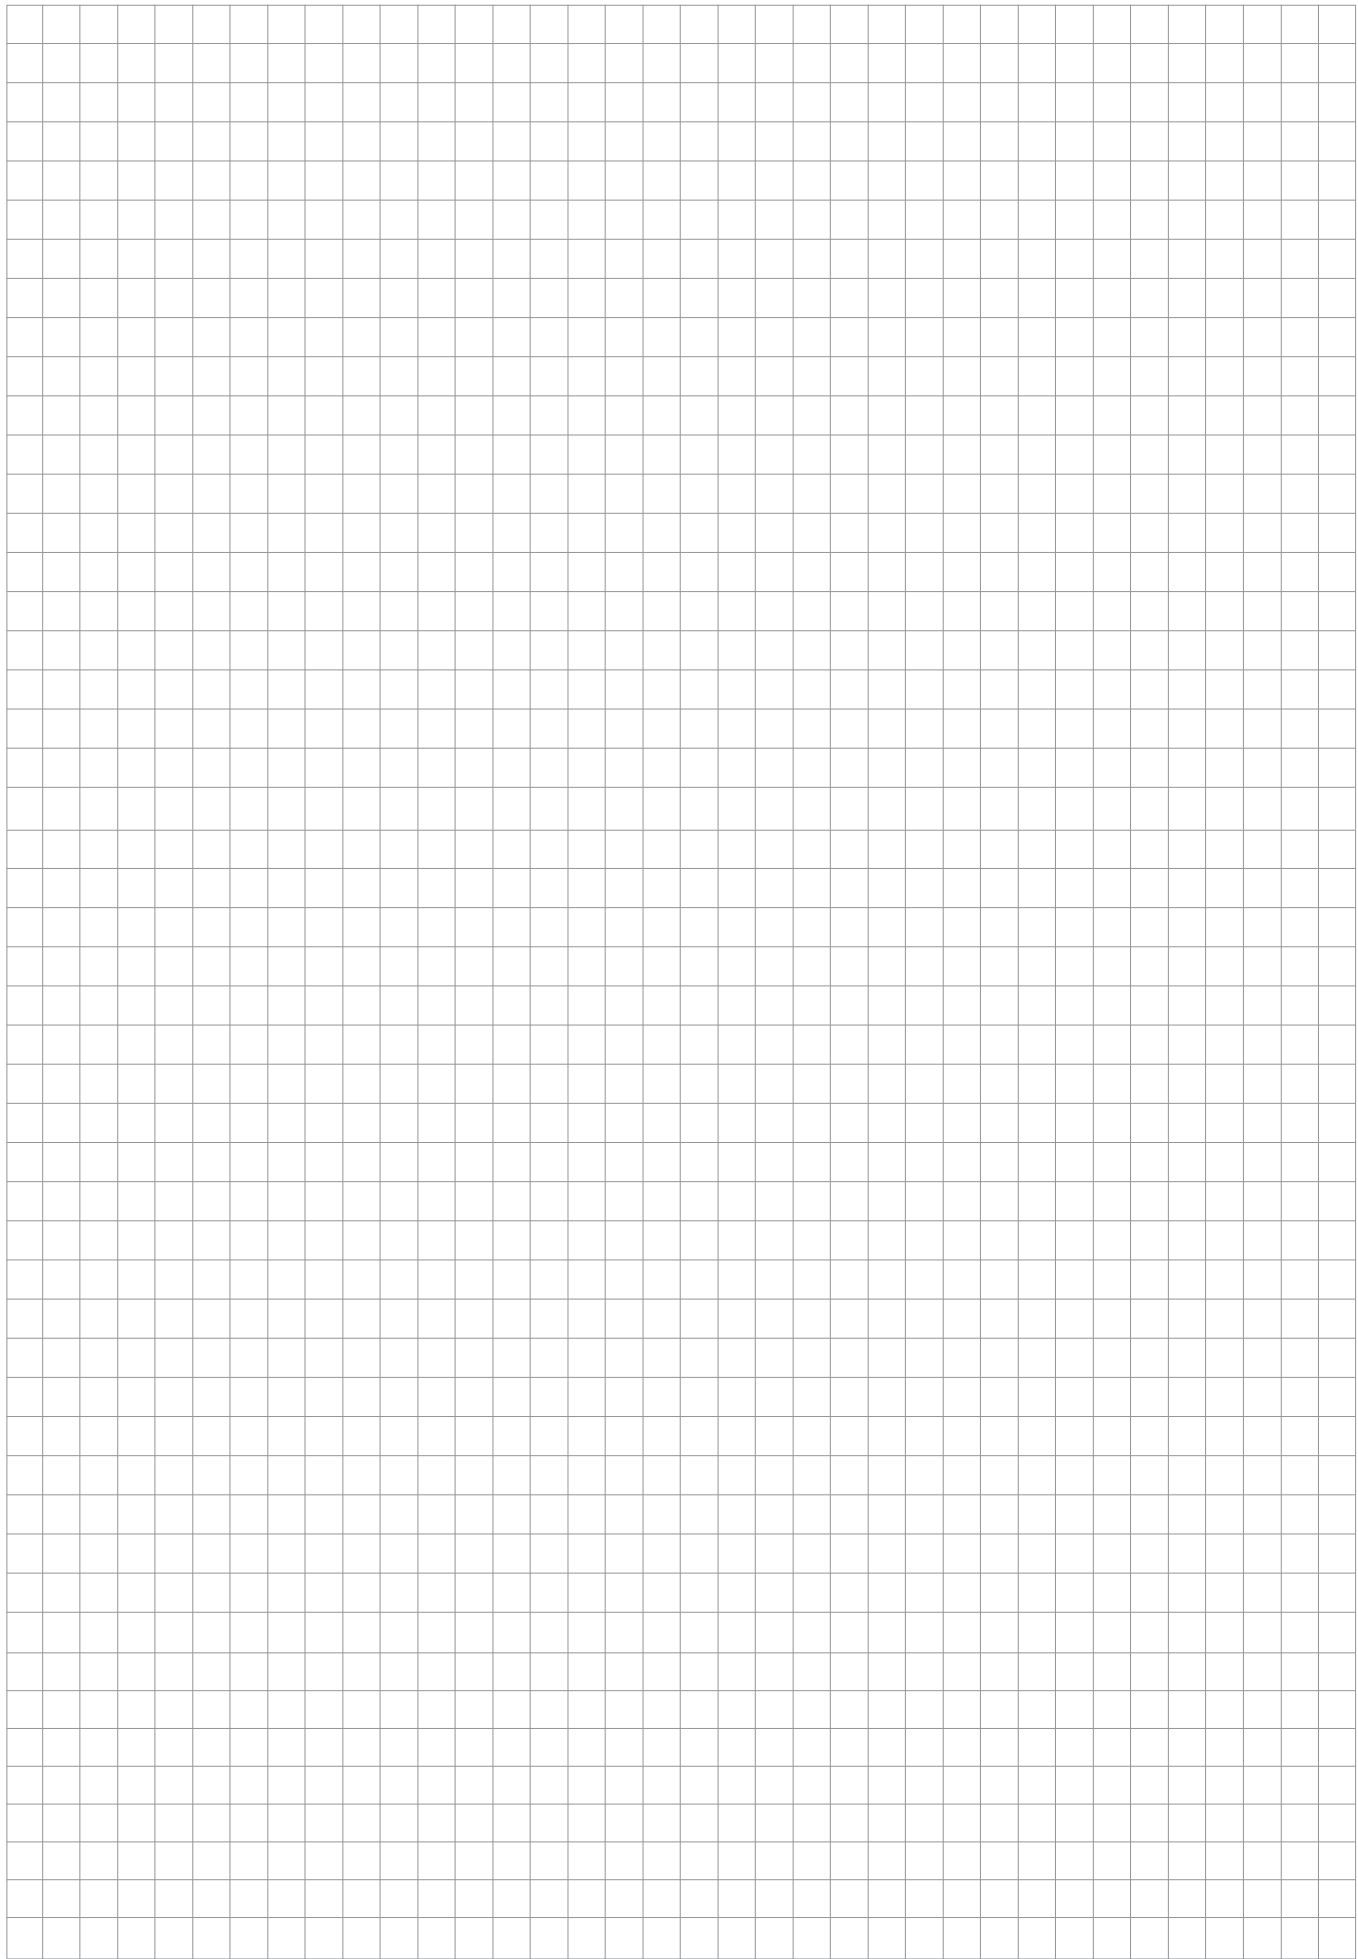

Measuring your Bathroom

- 1. Draw a basic outline plan of the room – you can choose to measure in imperial or metric units but remember to keep the method of measuring consistent.
- 2. Mark the positions of key features on the room plan such as windows, doors, boilers and radiators.
- 3. Note the measurements of all walls, ensuring that you include the length of features such as windows and doors. Remember to include the measurement from the corner of the wall to the start of the window or door.
- 4. Measure any existing bathroom furniture that you intend to keep and note their position if you don't plan to move them.
