BUILT TO LAST

The structure that you build to lay your deck on is vitally important to its longevity. Getting the basics right will mean it is strong and stable for years to come.

JOISTS

Timber Decking
450mm centres

if using chevron pattern
400mm centres

Composite Decking
400mm centres

if using chevron pattern
300mm centres

Installing noggins is really important to strengthen the structure and ensure a sturdy, level deck that will stand the test of time with no annoying squeaks or movement
