Engineering News Bulletin

Subject: **Isocyanate Resin Obsolescence Update Activator CA8300B**

Coatings ES Bulletin No. C-ESB-26-53
C-ESB-25-34B status update

Issued by: **James Trainer**

Date: 21st October 2026

Approved: **Floriane Fourgeaud, Alexandra Wahlmann**

Distribution: Global Distribution

Summary:

Due to an isocyanate raw material discontinuation (PPG Internal reference HR-17-7545) - Activator CA8300B, used with Desothane® CA8300 HS Polyurethane Gloss Topcoat, and CV123 HS Polyurethane Varnish Gloss, is being reformulated.

Detail:

An isocyanate raw material used in *PPG Activator CA8300B* has been declared obsolete by our supplier under Chapter 12 (Judicial Control). The raw material supplier has decided to withdraw the raw material from manufacture with immediate effect. PPG have updated raw material stock of the isocyanate to cover *PPG Activator CA8300B* manufacture to the end of December 2026 (depending on sales volumes).

Qualification Testing for the CA8300B reformulation has been completed using the same isocyanate molecule from another supplier. Requalification for the specifications below is expected to complete in Q4 2026.

The expected implementation date for the new formulation is January 2027.

Desothane® CA8300 HS Polyurethane Topcoat Gloss **CA8300/xxxxxx** **+ CA8300B**	British Standards Institute	BS 2X 34 Type A & Type B All colours.
	SAAB	STD 175428 Limited colours only.
	British MOD	DEF STAN 80-225 All colours.
CV123 HS Polyurethane Varnish Gloss **+ CA8300B activator** **+ CA8300C2 reducer**	British Standards Institute	BS 2X 34 Type A & Type B
