

THE Arrowipes RANGE

Perform with precision

ARROW
PIONEERING CHEMISTRY

UNCOMPROMISING INDUSTRIAL CLEANING SOLUTIONS

High-performance cleaning solutions for aerospace, engineering, rail, defence and advanced manufacturing.

From aerospace assembly to precision engineering, surface preparation directly impacts safety, performance and compliance. That's why our highly approved Arrowipes range has been developed to deliver consistent, reliable cleaning in demanding industrial environments.

Manufactured in the UK and trusted worldwide, Arrowipes combine powerful formulations with convenience and control - reducing waste, improving productivity and supporting industry standards.

When performance matters, choose Arrow.

INTRODUCING Arrowipes

Industrial wipes designed for the most demanding environments. Arrowipes offer a safer, cleaner and more controlled alternative to traditional bulk solvents and cloth systems.

CONSISTENT DOSING
No overspill or overuse

REDUCED CONTAMINATION RISK
Sealed packaging prevents solvent evaporation

IMPROVED HEALTH & SAFETY
Controlled solvent exposure

TIME SAVING
Grab-and-go convenience

REDUCED WASTE DISPOSAL
Lower liquid solvent handling

COMPLIANCE READY
Suitable for regulated industries

Arrowipes are engineered for surface preparation, degreasing, sanitising and final wipe-down applications across critical industries.

Arrowipes RANGE

Arrowipes substrate

Our industrial wipes are manufactured using a durable, hard-wearing 0.3mm substrate as standard, providing excellent strength and absorbency for demanding cleaning and degreasing applications.

Designed to withstand rigorous use, they are particularly well suited to critical industries where effective contaminant removal and surface preparation are essential. For applications requiring enhanced performance, a premium 0.56mm substrate is also available.

Manufactured from sustainable Lyocell fibres, this thicker material is plastic-free, biodegradable and AMS3819 approved, making it an ideal choice for aerospace, defence and other highly regulated industries seeking a combination of superior durability, environmental responsibility and compliance.

ENGINEERED CLEANING. PIONEERING CHEMISTRY.

Where compliance, cleanliness and performance are non-negotiable, Arrow delivers across critical sectors including:

NEW

SOLVE NF

C921

Non-flammable solvent wipes developed for use in controlled environments where reduced flammability is required without compromising cleaning performance.

400 wipes

NSF

Rolls Royce MLC104 / CSS255 Type A, B, D & E / CSS226 / Rolls Royce OMAT / ASTM F 945 22 / NSF (A1) 172809 / Rail Cat no. 007/079111

LOW VOC

NON-FLAMMABLE

LOW ODOUR, LOW LINTING

NSF & AEROSPACE APPROVED

C920

NSF

400 wipes

ARROWIPE 70 IPA

Pre-saturated wipes containing 70% Isopropyl Alcohol for fast, effective cleaning and sanitising of surfaces. Ideal for electronics, tools and precision components where rapid evaporation and residue-free performance are required.

ASTM F 945-12, NSF (A1) 169259, Rolls-Royce OMAT 1/257AT \ CSS255 Type A, B, C, D & E \ MLC104 & Rail Cat no. 007/160001

C836

NSF

300 wipes

ARROWIPE AQUA WIPES

Water-based cleaning wipes designed for general industrial cleaning. Effective on light oils, dust and contaminants where solvent strength is not required.

NSF (A1) 169258, Rolls-Royce OMAT 1/24AT \ Rolls-Royce CSS204 Type A, C & D \ MLC104, ASTM F 945-12 & Rail Cat No. 007/079108

C842

85 wipes

POWERSOLVE WIPES

Powerful solvent wipes engineered for aggressive cleaning tasks. Ideal for removing adhesives, sealants and heavy contamination in industrial settings.

Rolls-Royce Omat \ MLC104 \ CSS255 Type A, B & D \ CSS226

C055

60 wipes

85 wipes

RAPIDE WIPES

Quick-drying industrial wipes delivering fast, effective cleaning with minimal downtime. Perfect for maintenance teams requiring efficiency.

Rolls-Royce CSS255 Type A, B, D & E \ CSS200 \ CSS226 \ MLC104 \ O/MAT, ARP1755B, ASTM F 945-12 & Rail Cat No. 007/007876, 007/007877, 007/007878 & 007/007879

LOTOXANE® RANGE

SAFER DEGREASING

LOTOXANE® WIPES

C043

Low-toxicity solvent wipes designed for aerospace and engineering surface preparation. Effective for removing oils, greases and light contaminants prior to bonding or coating.

Rolls-Royce CSS253 \ CSS255 Type A, B & D \ OMAT 1/257G, Airbus CML ABR 9-0140 \ AIPI 09-01-002, Boeing D6-17487 Revision L, BAE R10 6026 \ BAE R10-6027, Meggitt Aircraft Braking & Fluid Controls, South African Airways & Rail Cat No. 007/025234 & 007/025235

- LOW ODOUR
- REDUCED HAZARD TO USER
- HELPS IN REDUCING VOCS'
- NON-FLAMMABLE

LOTOXANE® HD WIPES

C048

Heavy-duty cleaning wipes formulated for more demanding degreasing applications. Suitable for removing heavier oils and stubborn residues.

Boeing BSS 7432, ASTM F 945-12, Rolls-Royce CSS255 Type A, B & D and Rail Cat No. 007/025236 & 007/025237

LOTOXANE® FAST WIPES

C044

Fast-evaporating version of Lotoxane®, designed for rapid surface preparation where speed and productivity are critical.

NATO NSN7930995985789, BAE R10 6026, Pratt and Whitney SPOP 208 Delta Air Lines, GKN Aerospace WAPS 09-02 & Rail Cat No. 007/025238

HANDCARE

C178

150 wipes

HANDISAN WIPES

Antibacterial hand and surface wipes formulated for hygiene control in workshop and industrial environments. Ideal for maintaining cleanliness where soap and water are not immediately available.

C504

60 wipes

WYPIT

Wypit is designed to remove oils, greases and dirt from the hands in areas where washing facilities are not available and require no rinsing.

Rail Cat No. 050/000182

AVAILABLE DIRECT OR THROUGH OUR DISTRIBUTION PARTNERS

Whether you prefer to buy directly or through a distribution partner, we're here to help.

ARROW
PIONEERING CHEMISTRY

PIONEERING CHEMISTRY SINCE 1968

INDUSTRY-TRUSTED FORMULATIONS

Developed for aerospace, defence, rail and manufacturing sectors where compliance and reliability are essential.

DISTRIBUTOR & TECHNICAL PARTNER SUPPORT

We work closely with our distribution network to provide product training, technical data, marketing support and responsive service.

UK MANUFACTURING & QUALITY CONTROL

Consistent quality, dependable supply chains and controlled production standards.

PERFORMANCE-LED INNOVATION

Our R&D team continuously refines formulations to meet evolving industry regulations and customer needs.

COMMERCIALLY SMART

Ready-to-use wipes reduce over-application, minimise solvent waste and improve cost control on site.
