

BLAZE -Specialities Discs with attachment disc 50mm /SL3 Gr50 Norton BLAZE

Artical Number: 63642597045

EAN: 3157625810082

SizeDerived: 50mm /SL3

Description

Norton Blaze quick change discs feature a tool-free fastening system, which enables quick disc changes to maximise productivity and minimise downtime. Coarse grit discs are suited to grinding MIG welds and finer grit discs are ideal for grinding TIG welds.

Features & Benefits

Premium ceramic grain delivers powerful cutting performance on stainless steel, inconels, chromium cobalt and titanium, even at medium pressure

The best choice for part cut and finish on stainless steel, inconels, chromium cobalt, titanium and extremely hard materials

Aggressive disc removes all defects quickly

Premium ceramic alumina abrasive grain provides a cool, fast cut and a long product life

Provides the coolest cut and significantly faster cut rates

Supersize layer contains active filler which promotes cool cutting and longer product life

For the greatest durability, longest life, and edge-fray resistance on tough applications and stainless steel

Available in grits 36, 50 and 60
