

Broadband Technology 2000 Ltd is a specialist design-led electronic component distributor and manufacturers' representative. We are a technically-focused supplier of world-class solutions used to enhance our customer's product specifications.

SENSORS

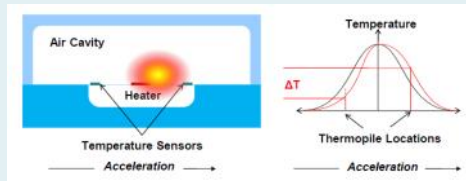

Memsic

[Thermal Accelerometer & AMR Magnetometer ICs](#)

Dual & Tri-axis Accelerometer (I2C, SPI and Analog) ICs

Anisotropic Magneto Resistive (AMR) Magnetometer (Compass) ICs

NEW: World's Lowest Power AND Smallest CSP Accelerometer ICs

Aceinna

[Current Sensor, Flow, Differential Pressure & Tilt Modules and Inertial Systems](#)

Gas Flow and Differential Sensors.

NEW: Current Sensor Modules and Tilt Sensors

Sensaggio Technologies

[Absolute Pressure Sensors — 0 to 46 bar](#)

TS, IATF and UL Certified

0 to 5V Output, 4..20mA Output, -40°C and 135°C operating temp

Media: Air, Gases and Liquids

Available in Aluminium, Brass and Stainless Steel

Sensdev GmbH

[SCP Series MEMs Pressure Sensors - Differential & Absolute](#)

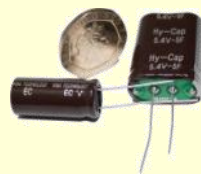

Amplified analogue output

15 bit serial I²C-bus signal

Temperature compensated -40...125°C

Supply Voltage 3V to 40V

POWER

Vinatech

[High Power EDLC and P-EDLC Supercapacitors and Modules](#)

Hy-Cap EDLC and Hybrid P-EDLC; Capacitance:0.5F to 3000F, Temp Range -40°C to +70°C. Up to 500,000 charge/discharges

NEW: Anti-Wetting Neo Series

NEW: VPC (Vina Pulse Cap)Series 3.8V Lithium Hybrid Capacitors

NEW: VET (Vina EDLC High Temperature) 2.7V Anti Wetting Series (85°C in 85% RH)

NEW: Activated Carbon MEAs (Membrane Electrode Assembly) for PEMFC (Proton Exchange Membrane Fuel Cell) and DMFC (Direct Methanol Fuel Cell) Fuel Cell Stacks.

PCTEL

[High Performance Antennas \(27MHz to 6GHz Frequency range\),
Cables, Permanent & Magnetic Mounts and RF Telecom Scanners](#)

The PCTEL antenna (27MHz to 6GHz frequency) range offers: High Performance GNSS, 5G, MIMO and Tetra; ideal for Public Safety, Defense, Military, SATCOM, Industrial Wireless, Broadband Wireless and SCADA applications. The PCTEL range includes VHF, UHF, High Rejection GNSS & timing, Wifi, 5G LTE frequencies in WIP, MIMO, Yagi, Panel, PUK, Combination & Embedded variants. Standard warranty up to 10 years (based on model)

NEW: PCTEL RF Telecom Scanners for Precision Network Testing of 5G NR, Tetra, DMR, LTE and Public Safety (10MHz to 40GHz)

Lantronix

[GPS & GNSS Receivers](#)

Ultra low power, High Sensitivity GPS modules SiRF V with Anti Jamming

Adactus

[Antennas \(ISM, GSM, LTE, GNSS\), SIM Card Holders & RF Cable Accessories](#)

Passive & Active Patch, ISM, 2G & 3G GSM, GNSS, 4G LTE band and 5G Band Antenna products.

New: 5G Band Antennas

Daico

[Amplifiers, Control Products, IF/RF and Microwave DC to 18GHz](#)

DC to 18GHz, High reliability, High Performance IF/RF/Microwave Amplifiers, Control Products, Transmitters & Transceivers.

MSI

[RF Interface and Active Filter IC's](#)

VHF, LP/BP Filters, Notch Filters, RFI Interface Front End, 15 Hz to 64 kHz Sine Source, Spectrum Analyser ICs Sensor Interface, 14 MHz Video LPs Filter, RFID ICs.

KDS Daishinku Corporation

[HQ Miniature Crystal Oscillators and Resonators](#)

Crystal Resonators & Oscillators and MEMs Oscillators

NEW: Arkh.3G World's thinnest Crystal Oscillator

New: Monolithic Crystal Filters (16MHz to 160MHz)

MegaChips

[ASIC and HD PLC ICs](#)

Kinetic

[DisplayPort ICs](#)
