

Broadband Technology 2000 Ltd is a specialist design-led electronic component distributor and manufacturers' representative. We are a technically-focused supplier of world-class solutions used to enhance our customer's product specifications.

SENSORS

TDK InvenSense

[MEMS Motion Sensor ICs + Digital & Analogue MEMS Microphones](#)

Memsic

[Accelerometer, Magnetometer & Current Sensors ICs](#)

Aceinna

[Flow & Differential Pressure and Tilt Modules](#)

Sensdev GmbH

[MEMs Pressure Sensors - Differential, Relative, Vacuum and Absolute](#)

POWER

Vinatech

[High Power EDLC + P-EDLC Supercapacitors and Modules](#)

UTC

[Miniature Super Capacitors for Pulse Applications](#)

Cymbet

[Solid State Batteries + RTC Version](#)

Vincotech

[Power Modules, Inverters & MiniSKiiP®](#)

PalPilot

[Connectors, Cable Harnesses, Magnetic Inductive Products and PCB's](#)

WIRELESS & M2M

PCTEL

[High Performance Antennas & Cables, Permanent & Magnetic Mounts + 27MHz to 6GHz Frequency range](#)

gridComm

[Narrowband Powerline Communications Modules + Street Light Management System](#)

Theobroma

[System-on-Module Products & Communication Modules](#)

Adactus

[Communication Accessories + ISM & LTE Products](#)

Maestro/ Falcom

[GNSS Receivers & Trackers + 3G Modems & Routers](#)

Neoway

[GSM/GPRS, HSDPA, LTE, LoRa & Wifi Modules](#)

Daico

[Amplifiers, Control Products + IF/RF and Microwave DC to 185GHz](#)

SEMICONDUCTORS

MegaChips

[ASICs and Display Port ICs + HD PLC ICs & Sensor Fusion DSPs](#)

MSI

[RF Interface & Active Filter IC's](#)
