Medical Technology Ireland is a new high-profile National and International event attracting global suppliers to the crème of the Irish Medical Device Industry.

Taking centre stage at the world renowned Ballybrit Racecourse in Galway, MTI is also a stone’s throw away from the world Medical Device Global leaders, including Medtronic, Merit Medical, Creganna Medical, Zimmer Biomet and Boston Scientific.

The medical technology industry is more vibrant, intensive and productive here in Ireland than in any other country in Europe, with 18 of the world’s 25 leading manufacturers of medical technology located in this country. Ireland is second only to Germany as the largest exporter of medical technology in the EU. Galway in particular is home to the cluster of Cardiovascular Medical Devices global market leaders, producing the highest levels of R&D and High Tech Innovation worldwide.

Besides the biggest names, there are almost 300 medical technology companies based in Ireland, employing a highly skilled workforce in excess of 27,000 in the industry, creating this attractive centre of production excellence and network of suppliers.

Both the event and the state of the art Exhibition and Conference venue offer cutting edge content in design, innovation and manufacturing as well as the unique opportunity to meet over 100 Irish and International leading companies showcasing the latest in medical device technology for you to choose from.

Medical Technology Ireland is supporting and promoting Irish Innovation and R&D as well as Medical Devices Internationally, if you would like to find out more then please email us today!
