

## AgilePM® Practitioner - Classroom Training

This 2-day course covers the certification by APMG and the DSDM Consortium that has been created to sit alongside PRINCE2® as an approach to project management. The 2 day course is an extension of the Foundation level certificate and teaches the candidate how to practically apply the method to their projects. The practitioner level course is specifically designed for those working in projects that want and need to be agile.

*Delegates that wish to study AgilePM® at Practitioner level will require a valid AgilePM® Foundation level certificate.*

### Course Objectives

To give delegates a practical understanding of Agile Project Management which is based on the internationally recognised framework of DSDM Atern. This will enable delegates to become immediately productive as a project manager in an agile project environment. To highlight the difference between simple lightweight agile approaches which typically operate at the solution delivery (or 'work package') level and the greater holistic view of how multiple work streams are co-ordinated with the appropriate level of governance and control. The course prepares delegates for the Practitioner exam.

### Course Approach & Content

This course is offered as a 2 day Practitioner only course and is a mixture of input and practical sessions, delivered by an approved trainer with practical experience of project management.

Pre-course material includes highly acclaimed event preparation. Delegates should spend approximately 10 hours studying this pre-course material in order to be well prepared for the course.

- Fundamentals and the Philosophy; Principles; Preparation; Lifecycle and Products; Team structures;
- Roles and Responsibilities; Communication; MoSCoW and Timeboxing; Lifecycle Configuration;
- Application of the variety of agile practices
- Estimation & Measurement; Quality & Maintainability; Planning, Control & Risk; Implementing AgilePM®.
- Facilitation and support mechanisms within AgilePM®.
- The agile approach to managing and prioritising requirements

### Course Exams

Practitioner:

- 2½-hours, open-book (AgilePM® Handbook v2 only).
- Objective-test. 4 questions, 20 marks per question).
- Required pass mark 50%. (40/80)

Passing this exam will give you an internationally recognised professional qualification.
