

Sensory Equipment and Resource library

The sensory equipment and resource library is based at the Riverside Centre, The Quay, Newport, PO30 2QR. The Centre's main entrance doors open automatically as you approach them.

When you have an appointment at the Library you need to register your car at the reception desk. There will not be a receptionist but there is an iPad and the simple instructions are on the desk

You then need to walk up the corridor, through the double doors until you can see the Sensory Library banner. There are some chairs to your left where you might need to wait if you are early for your appointment. A Library volunteer will greet you here.

When it is time for your appointment, you will be shown into the library room. This room is private and we will close the door if you want us to. Your appointment will last for about 40 minutes.

The Riverside Centre
The Quay, Newport, PO30 2QR

To ring us on the day of your appointment: 07899770872

You can see what we have in the library at:
www.peoplesmatteriw.org

Coming to the library

What is the library?

Some sensory equipment that people think about buying is very expensive. We want people to be able to try it first. When you have tried it you can decide if it was helpful or not. We do not sell any products. We can give information about where to buy them. We can also give information about other services.

You will need proof of your address if you want to borrow anything from the library

Who will I meet?

Claire and Linda are volunteers at the library. We will meet you at the door, show you where to go and help you in the library. We will talk to you about what we have in the library and what might be helpful.

The volunteers and staff are not trained OT's or physiotherapists. They can not give medical advice.

Books

We have lots of books about Autism, Aspergers and Sensory Processing that you can borrow for 3 weeks. We have books for children, adults, parents and carers. A full list of our books is on the People Matter IW website.

Weighted therapy

We have weighted blankets that can be borrowed. We also have lap pads and shoulder wraps. **We will have to weigh the person that is going to use it.** We have sensory and pressure clothing to try, sensory hug t-shirts and compressions vests. You can borrow these for 2 weeks.

Equipment and clothing

We have peanut balls, swing equipment, ear defenders and headphones, light filters, wedge cushions, a dark den, sensory lights and lots more. Some equipment can be looked at only in the Centre. Some is available to borrow for 2 weeks.
