<b>Notes</b>	<p>The data recognises both marital and civil partnerships.</p> <p>The status classifies an individual according to their legal marital or registered same-sex civil partnership status as at census day, 27 March 2011.</p> <p>Although the term 'single' is widely used to cover people in a number of states such as divorced or separated it is not a legally recognised status and was not an option on the census questionnaire. In census results the term 'single' is used to refer only to someone who has never been married or in a registered same-sex civil partnership, which were options on the census questionnaire.</p>
