

Membership Application & Data Consent Form

The Cardiff Astronomical Society (CAS) extends a warm welcome to all astronomy enthusiasts.

Whether you are new to this fascinating subject or more experienced, you're sure to find something of interest as a CAS member.

Fortnightly talks are given on various subjects including cosmology, optical astronomy, space exploration and astrophotography. Observing sessions are held locally throughout the year. The Society also has a well stocked library with books being available for loan to members before and after the fortnightly talks.
