

Network Engineer

Our Approach

At Oxford Applied Training we want to support your business strategy by helping you to access Government funded training. We have developed a blended learning approach that makes full use of technology to minimise the disruption of day-to-day business activities while maintaining substantial human contact to ensure consistent quality of the user experience and support.

The Level 4 Network Engineer Qualification has been developed to train people to keep networks running smoothly, to learn how to install, design and maintain communication networks and to support other network users' other employees or customers. Network engineers monitor, improve and fix networks, within one company or between organisations and are trained in cloud-enabled Networking, Network configuration and administration, and Network security. Qualifications with Network Engineer Level 4 included are: CompTIA Network+, BCS Level 4 Certificate in Network Systems and Architecture, BCS Level 4 Certificate in Network Security

Who is it For?

Typical roles associated with this qualification are: Network Technician, Network Engineer, Systems Engineer, Network Administrator

Responsibilities

The primary role of a network engineer is to design, install, maintain and support communication networks within an organisation or between organisations. Network engineers need to maintain high levels of operation of communication networks in order to provide maximum performance and availability for their users, such as staff, clients, customers and suppliers. They will understand network configuration, cloud, network administration and monitoring tools, and be able to give technical advice and guidance.

20% Off the Job

Off the job training is defined as learning which is undertaken outside of your normal day to day responsibilities and contributes towards the achievement of your apprenticeship standard.

 <p>Duration 18 Months</p>	 <p>Professional Links BCS</p>
 <p>Qualification Level Level 4</p>	 <p>Requirements A-Level ICT/ Computing</p>

Funding

For non-levy paying SMEs the government can fund up to 95% of the costs, subject to certain conditions. An expert OAT consultant will guide you through the most advantageous funding options before the programme starts.

Why BCS?

BCS is the only royal chartered professional body in the UK dedicated to setting and promoting the highest standards in professional competence, conduct and practice within the IT industry. With a member community of 68 000 BCS gives IT professionals a network to help raise standards of competence and conduct, creating a diverse and sustainable IT profession with opportunities for development and progression at every step through professional registration, qualifications and frameworks.
