

Course Title: Emergency Paediatric First aid Level 3

Duration: 1 Day

Broad Aims: to give the learner the knowledge, skills and confidence to respond effectively, safely and promptly to an emergency situation that may involve babies, toddlers and children within the workplace.

Overview

This course has been designed and developed for people working with babies, toddlers and children who have a duty to provide emergency first aid cover until professional help arrives.

It has been designed to give the learner the knowledge and practical skills to recognise and treat a number of injuries, conditions and illnesses that are common to babies, toddlers and children from birth to puberty.

The learner will be assessed through ongoing practical observations and a multi choice written exam at the end of the session. Each learner if applicable, will receive an AoFAQ Level 3 certificate in Emergency Paediatric First aid.
