INTRODUCTION

Cardiff Astronomical Society was founded in July 1975, and was based originally at the old Penylan Observatory. Unfortunately, due to years of neglect by the City Council, exacerbated by vandalism, the observatory had to be closed down early in 1979, and the Society moved its headquarters to University College. Meetings are held fortnightly, on alternate Thursdays between September and July in the Small Shandon Lecture Theatre, Main Building, University of Wales College of Cardiff (see map). They commence at 7.30 pm and finish shortly after 9.00 pm. The programme comprises lectures, short talks, quizzes etc., and we try and cater for all interests at whatever level, whether beginner or more advanced. Besides the indoor meetings, informal observing sessions are arranged from time to time by our Director of Observations, and notice of these is given at the indoor meetings, or via the *Newsletter*.

The Society owns a number of portable telescopes (see p.4) which are available for members to loan. They can be borrowed at meetings, or by arrangement with the Director of Observations (address overleaf). Practical observing sessions will be held from time to time at Dyffryn Gardens car park. Details will be announced at meetings or via the *Newsletter*, and the Director of Observations can be contacted at the 'phone number overleaf.

A comprehensive library is available for use by members. The Society publishes a regular *Newsletter* that gives information on forthcoming activities, current phenomena in the sky etc. Any member is invited to contribute. In conjunction with the Federation of Astronomical Societies we publish an *Astrocalendar* that gives details of planetary phenomena, eclipses, meteor showers etc. for the forthcoming year.

Subscriptions: Adults £11.00 per annum, Juniors £2.50 per annum.
Due September 1 1992 for 1992-93 session. Prompt payment appreciated!
