

FLOOR PAD GUIDE

Black Floor Pad

Use for wet stripping of old soiled floor finishes and sealers with standard speed rotary floor machines. It can also be used for heavy duty cleaning on concrete and industrial floors. The Black floor pad effectively removes floor finish, black marks and stains.

Brown Floor Pad

Use for dry stripping of protected floors and wet stripping operations with any conventional stripping solution. It can also be used with an automatic scrubber-drier to maintain heavily soiled industrial floors such as concrete.

Green Floor Pad

Use for daily wet scrubbing of unprotected hard floors with standard speed rotary floor machines or automatic scrubber drier. It can also be used to prepare hard floors for recoating with floor finish and for stripping soft floors such as linoleum or soft vinyl. A medium aggressive pad used to remove marks and soil.

Blue Floor Pad

Use wet for regular maintenance of unprotected floors with an automatic scrubber-drier. It is also used for dry scrubbing of heavily soiled floors or for spray cleaning of medium soiled floors. Recommended for dry stripping soft floors such as linoleum.

Red Floor Pad

Use for routine spray cleaning on protected floors with standard or high speed machines. Cleans when damp; buffs when dry. Quickly cleans and removes scuff marks and enhances floor appearance. Also used for light scrubbing.

White Floor Pad

Use for dry polishing and buffing of protected floors with standard speed rotary floor machines. It can also be used for light spray cleaning. Specific fibre mix increasing the floor shine; doesn't scratch or damage protected floors. Enhances the floor shine.
